

January 2010 Leadership Tip of the Month

Recover. Refocus. Reunite.

Things To Do

Recover

- Take a good, hard look at the activities that didn't work for your group last year, and resolve not to support those activities in the coming year

Refocus

- Engage your group and have them develop one or two strategies for staying top of mind with people who can send or refer work to the group

Reunite

- Significantly increase the number of live meetings your lawyers have with clients, potential clients, referral sources and other lawyers in the firm
-
